Inhibitors in Patients with Hemophilia: Problems and Progress

Brought to you by Medscape with an independent educational grant from Roche, during this symposium experts will discuss the problem of inhibitors in hemophilia A therapeutics and new treatments in development.

Conducted in conjunction with the 10th Annual Congress of the European Association for Haemophilia and Allied Disorders (EAHAD).

**Date:** 1st February 2017  
**Event Time:** 2pm-3:30pm  
**Venue:** Paris Marriott Rive Gauche Hotel & Conference Center, Room AB

---

14:00-14:05  
**Welcome/Introduction**  
Cedric Hermans, MD, PhD, MRCP(UK), FRCP(Lon), FRCP(Edin) (Belgium)

14:05-14:20  
**An Update on Inhibitors in Pediatric Patients with Hemophilia A**  
Elena Santagostino, MD, PhD (Italy)

14:20-14:35  
**An Update on Inhibitors in Adult Patients with Hemophilia A**  
Robert Klamroth, MD (Germany)

14:35-14:50  
**New Coagulation Factors for Patients with Hemophilia A and Risk of Inhibitor Development**  
Cedric Hermans, MD, PhD, MRCP(UK), FRCP(Lon), FRCP(Edin) (Belgium)

14:50-15:05  
**Clinical Progress with Novel Therapies for the Management of Hemophilia A with Inhibitors**  
Dr. Johannes Oldenburg, MD, PhD (Germany)

15:05-15:25  
**Faculty Discussion/Q&A**

15:25-15:30  
**Concluding Remarks**  
Cedric Hermans, MD, PhD, MRCP(UK), FRCP(Lon), FRCP(Edin) (Belgium)
